Then, inside, we spread the love a little bit more, by creating highly contemporary living spaces that are simply a pleasure to live in. Every Elan home offers light, airy, high specification, luxury accommodation that has the flexibility to be tailored to the individual wants and needs of you and your family.

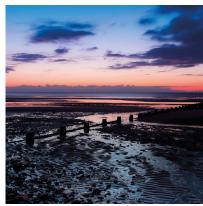

What's more, each of our intimate developments are lovingly designed to stand the test of time, so that as they mature and blossom, they become the heart of a close-knit local community.

SAVE ANNUALLY WHEN YOU BUY NEW

- Lighting, heating & hot water costs are around 50% cheaper on new build houses. It means you could save an average of £82 a month, totalling £979 a year.
- Your water bill could be £126 cheaper annually because new builds are designed to reduce water usage and therefore use an average of 40 litres per person per day less than existing homes.
- 86% of new builds have an A or B EPC rating. Just 5% of older properties achieve the same energy efficiency grade.
- Upgrading an older home to modern standards is very costly. Avoid hidden costs and pricey renovation work with an energy efficient new build.
