GREEN SPACE, LIVING SPACE, YOUR SPACE

SAVE ANNUALLY WHEN YOU BUY NEW

- Lighting, heating & hot water costs are around 50% cheaper on new build houses. It means you could save an average of £82 a month, totalling £979 a year.
- Your water bill could be £126 cheaper annually because new builds are designed to reduce water usage and therefore use an average of 40 litres per person per day less than existing homes.
- 86% of new builds have an A or B EPC rating. Just 5% of older properties achieve the same energy efficiency grade.
- Upgrading an older home to modern standards is very costly. Avoid hidden costs and pricey renovation work with an energy efficient new build.
